TECHNOLOGIES

CASE STUDY

WEB DEVELOPMENT + SECURITY AUDIT

BEAUTY BY NYASHA

Booking, payments and customer data, secured before a clean launch.

CHALLENGE

A new luxury salon site needed a security review before launch — booking, payments and customer data all live.

WHAT WE FOUND

Issues across the application and its Supabase backend — 8 in total.

OUTCOME

Every finding resolved; the site launched clean.

THE RESULT

8 FINDINGS RESOLVED · FULL SITE BUILT & HARDENED · LAUNCHED SECURELY
